PONTIFICAL GREGORIAN UNIVERSITY

Truth, Justice, & Liberty in a Pluri-Anthropological World

quid
HOMO
est?

Quid homo est? With hyper-relativist “woke” culture, there is no clear way to define human nature and objective moral standards. Confusion and conflict reign in our legislatures, businesses, universities, and homes. Come discuss how to stop the spread of a disease that is rapidly undermining timeless principles of truth, justice and liberty in free societies.
